(Move slider to slide through images | Click image for larger pop-up)

Playa Arenal is located 5 minutes from Pedasi. The Pedasi airport is only two minutes away, well maybe one minute, ok thirty seconds.

This clear titled 18.5 acre property has 450 meters of sandy beach. There are three levels for construction sites.

Again I must emphasize the five magic words "clear titled beach front property". These are the gold medal five star diamond studded platinum horse shoe magic words in Panama.

I first visited Pedasi 4 years ago, it was and still is a bit reminesent of a little artist village with no artists, at least not yet. The photographs here in the slide show will give you a good look at the quaint little painted homes partly due to the ex president 1999-2004 Mireya Moscoso the first female president of Panama who calls Pedasi her cradle.

My partner Casey Halloran in conjunction with Casey's generous retired parents have purchased a two story five bedroom five bath room house in this quaint little town. We, mostly Casey, are in the process of changing this home into a B&B for the increasing number of visitors to this area. So as you can see I am sold on Pedasi.

15 minutes away is the Azuero project www.azueros.com with Villa Camilla designed by French architect Giles St. Giles. Azuero Project properties on the beach are \$100+ a meter square.

This Playa Arenal property is presently for sale \$1.5 mil or \$20 a meter square. This is a price is a steal, just ask around.
